Cost Questions

I have had my Nintendo for about two years now and I have eight games. I heard on the six o'clock news that it only takes \$4-\$5 to make a game. Why are they about \$40-\$50 at stores?

Billy Winslow
Saratoga Springs, NY

Game Paks are like human brains—they process information. In fact, the entire human body isn't "worth" much! With inflation and all, its "components" are worth just about as much as Game Pak components are, but most of us like to believe we're worth more than that! Like human brains, it's how we use the Game Pak's memory capacity that counts, and once our engineers put their gray matter to work, designing and developing a program to best use the Game Pak memory is the biggest challenge—and expense. Add to the cost of programming and development other expenses like packaging and shipping and you can see that the actual cost of putting a Game Pak on a store shelf is much more than that of its raw materials alone.

Star Watcher

I saw The Wizard last weekend—it was great! I want to write to Jenny Lewis, the girl in the movie. Do you have her address?

Jason Kendall
Boston, MA

Judging from the number of letters we've received, Jenny's going to get lots of mail. She's working on a new television program, Shannon's Deal, for NBC. You can write to her c/o NBC Publicity Dept., 3000 W. Alameda, Burbank, CA 91523.

Multi-lingual Power Source

I'm a real big fan of Nintendo. I got my NES last year and now I have lots of games. I get Nintendo Power and I really like it. The tips I read really helped me improve my scores, but I could understand them better if you wrote in French. There are lots of Nintendo players here in Quebec, and some of my friends speak French, not English. Do you have Nintendo Power in French, too?

Joanie Cremin
Longueuil, PQ

Nous parlons francais! (Y tambien hablamos español!) Nintendo Power is published strictly in English, but we can answer letters in French and Spanish. Send us your questions (o preguntas) and we'll do our best to respond in your native language.

Change of Address

What do you do if you are moving to a new city or town and want your address changed to make sure you get your Nintendo Power?

Michael Welle
Springfield, VA

It's easy to have your delivery address changed. When you know what your new address will be, call our Consumer Service Representatives at 1-800-255-3700. They'll see to it that you don't miss out on the Power.

Game Boy Fan Mail

I recently purchased the Nintendo Game Boy. I am proud to say that it is great! The graphics are excellent, the stereo sound is superb, and it is small enough to take anywhere. My games include Super Mario Land, Baseball and Tetris. I am looking forward to playing Golf and many other Game Boy Game Paks. I would like to know if Nintendo Power will have a special place for Game Boy previews, high scores and tips.

Keep the great products coming.

Stevie Stevens
St. Leonard, MD

Game Boy's been a big hit! And yes, we've had a Game Boy column since the September/October 1989 issue. You can expect the column to expand as more games become available and as we learn about more tips. When you discover tips and secrets, send them in, or if you post a super score, send us a picture of your Game Boy screen. Who knows? Maybe you'll see your name in the Game Boy Column.

Drop us a line, we'd love to hear from you! Send your letters, drawings, jokes, tips and Power Player Profiles to:

VIDEO SPOTLIGHT

I hear that you're looking for Power Players. Well, you just found your man. I'm 14 and have 37 games. I got my Nintendo when I was eleven and I think it's totally awesome. I have played many games and beaten most of them. Blaster Master, Ninja Gaiden, The Legend of Zelda and Ikari Warriors are a few that I've beaten.

My favorite game is Blaster Master because I like the idea of having the little character get out of the car to obtain weapons and to destroy the mutants at the end. I have other interests. I enjoy playing basketball and football. I make the "B" honor roll easily in school, and I like to read C.S. Lewis

books. My favorites are the seven Chronicles of Narnia. Right now I'm trying to finish Cobra Triangle and Teenage Mutant Ninja Turtles. In the future I plan to get Batman, Blades of Steel and RoboCop. Keep those awesome games coming because I'm ready!

Aasif Mirza
Sewaren, NJ

I think I'm a Power Player because I've beaten just about every game that I've played. All together, I've defeated 19 Nintendo games so far. My Game Pak library is small, so half of the games I defeated were borrowed from friends. Since I'm often busy with schoolwork, I cannot beat games quickly. Nevertheless, if I'm persistent enough I can beat even

the most time-consuming games such as The Legend of Zelda, The Adventure of Link and Metal Gear. The game that puzzled me the most of all the games I've defeated was Rambo. I finally solved it without any help and destroyed the flying fortress using only five life bottles.

I enjoy a variety of sports, collect baseball cards, and play in the Woodbridge Middle School band.

I'm the oldest, and only boy in my family and have three younger sisters. I think that Nintendo games are getting better every year and that Nintendo Power is the best video game magazine around.

Will Cwiertniak
Elmhurst, IL

POWER PLAYER PROFILE: Tom Wittgow

Age: 17
City: East Wenatchee, WA

Favorite games: I like role-playing games because they challenge me. I can finish most games in less than three days, but RPGs sometimes take me up to a month. Ultima was really challenging, but my favorite game is Dragon Warrior. I played lots of Super Mario Bros. 3 before the NES version came out on the Play-Choice coin operated machine. Flying as Raccoon Mario is tricky! Accomplishments: I've beaten so many games

that I can't list them all, but a few are Dragon Warrior, Ultima, The Adventure of Link, Mega Man II, Strider and Faxanadu. When a local toy store had a "Super Mario Bros. Challenge", I ended up winning. Each person got to play for five minutes, and my high score was 389,000! What's really great is that I received a Game Boy for winning, so I also bought Super Mario

Land. Future games: I plan to get any RPGs that look cool, and I plan to stock up on games for my Game Boy. I'm also looking forward to Super Mario Bros. 3, Zelda III and Dragon Warrior II, if they're coming out. Interests: Playing video games and skiing at nearby Mission Ridge. To pay for video games and skiing, I usually work summers at a cherry farm. Advice: To anybody who doesn't have a Game Boy, I say get one!! It's great—you'll love it, especially on long trips.

In The

This storyview takes the Light Warriors on a Final Fantasy of discovery and adventure. If you find the hidden clues here and in the game, then enter the Final Fantasy Treasure Quest. You could be whisked away on a real-life adventure just as exciting as Final Fantasy itself! And you don't have to be a wiz to win. An 84-page Explorer's Handbook is included with the game. The Light Warriors

The great sage, Lukahn, predicted that four courageous foes of evil would one day recover the four good Orbs and bring freedom to the world. They would be great fighters and wield the power of magic. But many years passed. Then, finally, beyond hope, they arrived—The Light Warriors!

The King's Quest

The King's Quest is but the first of many trials for the adventurers.

For many years Coneria has suffered the ravages of an evil sorcerer. Seeking out the King of the land, the Light Warriors learn that the Princess was abducted by Garland and taken to his castle. They set forth to rescue her.

Coneria

The Light Warriors speak to all the people of this town, although some are more interested in body language.

The Fall of Garland

Through treacherous lands the heroes fight their way Northwest until they reach a desolate palace. Inside, they find Garland and challenge him to battle. Having gained strength and experience on their journey, they defeat the wizard and rescue Princess Sara.

By using their strength of arms and magic the Light Warriors defeat Garland and rescue Princess Sara!

Across The Bridge Awaits A New Land

In promise to the Light Warriors, the King builds a bridge to the mainland. Once across, the warriors realize that their adventure has just begun. Wide realms lie before them, and great deeds wait for the coming of bold heroes.

The Cave of Matoya

First, they seek out the friendly witch who dwells in a cave to the North. There they learn new secrets from Matoya and her broom.

Battling The Pirates

Then the Light Warriors turn Eastward to the village of Pravoka where fierce pirates have laid siege to the town. A desperate battle begins.

Greatly outnumbered, the heroes combine their skills in combat and magic to defeat the pirate rabble.

The Voyage of The Pirate Ship

The defeated pirate captain gives up his ship to the warriors. Now they can sail to new shores, but they can land only on those equipped with a stone pier. After stocking up at Pravoka, they head Southwest.

The Sleeping Elf Prince

The journey by sea brings the Light Warriors to a wide land in the South peopled by elves. Their Prince, however, lies under a deadly sleeping spell. A new task begins.

A Village of Elves

In the Elf Village there lie many people who have died in battle. Visiting their graves, the Light Warriors pay their respects to these fallen heroes.

The Dwarf Cave

Traveling further West, the Light Warriors discover a town of Dwarves who live in a great cave. Here they obtain riches and meet Nerrick, who must have explosive TNT to complete the channel he is digging to the Western Sea. To get the TNT they need a key from the sleeping Elf Prince.

The Castle of Astos

In this Northwestern castle, the Light Warriors meet a mysterious king named Astos who has lost his crown. But there is more here than meets the eye!

The Marsh Cave

Seeking the crown of Astos leads the party to this vast, southern cave. Inside they are met by an army of evil creatures, but with each victory they earn treasures and build experience. Luckily they brought plenty of Heal Potions to restore their energy. And so after many battles they at last find the crown.

A Desperate Battle

The fiends in the Marsh Cave fiercely guard their treasure and the Light Warriors have never faced such an attack. In fact, they use 50 Heal Potions just to reach the crown!

The Elf Prince Awakens

Having obtained the Crystal from Astos, the Light Warriors return to Matoya's Cave. The kindly witch rewards them with a Magical Herb that wakes the sleeping Elf Prince. He gives them the Key.

Oh, this HERB will
release the Prince from
Astos' curse. Look!
He is waking...

Is this a dream?...
You, the
LIGHT WARRIORS?...
Is this not real?...
So, as legend says,
I give you the MYSTIC
KEY.

Seeking The TNT

With the Key, the band of heroes returns to Coneria and searches every locked door for the TNT Nerrick needs. To their great surprise, they also find a valuable item of power in a treasure chest.

In the treasure box:

The Earth Cave

In the Far West lies a cave filled with evil. But the four heroes must penetrate the darkness and defeat a Vampire to obtain the Jewel.

Up The Creek In A Canoe

After many more adventures, the Light Warriors reach the town of Crescent Lake where they meet Lukahn the sage and obtain the Canoe.

The Heart of The Volcano

Paddling up the rivers of the Southeast, they come to Gurgu Volcano. Deep inside is Kary, the demon of fire. They use magic to defeat the fiend.

Treasure of The Ice Cave

North of the Volcano the Light Warriors reach the Ice Cave. It is their greatest test so far! But success rewards them with the Floater Stone.

Take to The Skies!

With the Floater they find the airship and fly to the North. Here, a new world opens up for them. New quests await and old secrets remain hidden. In time they take on new identities and face the ultimate challenge from the past.

OUT OF THIS
WORLD ACTION

SUPER 32

The aliens are back and they don't intend to lose a second time to a couple of combat yahoos from a backward planet like Earth. But that didn't stop you in Contra and it's not likely to stop you now. What may stop you are the eight grueling stages leading up to the final, desperate battle with an indescribably weird alien Super C super fiend. If this game doesn't heat up your summer, nothing will!

STAGE 2

The First Base

Once more into the breach! To succeed here you must change your strategy. The vertical scroll means you'll face attackers on four sides rather than three.

Gain time to plan moves by standing in the safe zones between the firing patterns of tanks.

Stand in the "Safe Zone."

Watch your flank!

Blast the tank.

◀ START

THE BIG GUN

Dodging the shots of this giant gun isn't so tough if you keep to the bottom of the screen. Move in the direction opposite the motion of the Big Gun.

Blast the Big Gun when you're in the clear.

KEEP ON MOVING

If you don't have a strong option, don't bother finishing off all the enemy troops or guns. Just before the Big Gun at the end you can race past the two guns on each side and still take on the final enemy.

Don't waste time. Move on to the end

STAGE 3 The Jungle

Don't let the pleasant greenery fool you, this jungle has been planted with booby traps and an alien army. They'll come at you from the bushes, the trees, and pop up suddenly in front of you.

KNOW DOWN THE MORTAR

Staying on your toes isn't easy in this swampy jungle, but it's vital. Once you spot the mortar it begins launching its rounds. Keep to the far left of the screen, just out of range, and continue firing at the mortar until it's destroyed.

Don't move too close to the mortar or you won't be able to move back out of range.

About midway through the jungle the action really heats up. If you need a break, dive into the pools and stay submerged. Underwater no one can harm you.

SHOOT UP AT A 45 DEGREE ANGLE

Alien troops have heard about your success and they've been waiting up in the trees. In this area run forward firing at a 45 degree angle.

First, defeat the three aliens in front, then turn and neutralize the attack from the rear.

BAKALU DESTROYED

This mechanical monster doesn't need to spin a web to catch its prey. To defeat it, dodge its stomping feet and its Destructoid beams.

Use the top of the Babalu as a safe refuge from its attack.

DEATH DROPPER

This fiendish machine can really get the drop on you. Fire straight up at the moving targets, dodging back and forth to avoid the falling bombs. If you jump up, however, you can kiss a life goodbye. It all comes down to good timing and quick reflexes.

When you feel the ground shake, rattle and roll, slow down! You're in the middle of the Earthquake Zone. Move one step at a time. If the ground drops away, jump immediately or you'll be swallowed. And don't forget to defend against crazed attackers.

Using the Spreader option will help you to win quickly.

STAGE 1

The Inner Base

Home to elevators, angels and floating blue bubbles, it seems that this should be a truly uplifting stage of the game. But the truth is that these lofty enemies are trying to keep you down. All you can do is press ahead and keep your spirits up.

KNOW THY ENEMIES

The lower shaft is the home of winged aliens who attack like avenging angels. Most of the time they'll jump down at you from above, so your best defense is the Spreader.

Keep Your Head Up.

Shoot out the rotating Disc guns first.

BUBBLE TROUBLE

When bubbles appear ahead in the corridor, jump and fire. Your jumping motion will make you spin and your shots will reach the higher bubbles.

Don't try to dodge!

LASER SHOWER

The Laser Shower is trying to clean up your act with a deadly dose of white light. It looks pretty menacing, but in fact is one of the easier enemies. Just make sure you have the Spreader. Shoot out a space in the center of the Showerhead and continue firing from that safe spot.

Shoot the center first.

Then blast the sides.

THE ULTIMATE WEAPON

As you'll see, using the Spreader is almost always the key to defeating the toughest enemies. In the elevator shaft shown here you can find the Spreader a little more than half way up. Make sure you snag it.

BLAST THE BARRELS!

From the far right hand side of the screen, shoot out the barrier to the left above. If you shoot the barrier from out in the open, you'll be wiped out in no time.

Go to the far right.

Shoot the barrier.

THE LOWER SHAFT

Angels and Disc Guns make for a dangerous combination. While the Guns pin you down the Angels attack en masse. Your best bet is to shoot out the Disc Guns first and then turn to the Angels. Move slowly, one ledge at a time.

Shoot the Disc Gun on the left side of the shaft first. Then destroy the Gun on the right side.

STAGE 5

The Cliff

Why should you climb this brutal cliff? Not just because it's there, that's for certain, but because you have to. On your way up you'll meet aliens propelled by jetpacks, robotically controlled guns in the cliff and treacherous giant stones that crush everything in their path like steamrollers.

▲ START

STEALTH STRATEGIES

The rooftop guns are best taken from behind. Jump down from the level above, then quickly jump over the gun and feed it hot lead.

Over the top.

Blow up the gun from behind.

KRYPTO-CRUSTACEAN

This skull dropper is another tough target for you and the Spreader. First clean up the attacking skulls. Then aim for the blinking red eye on the Skull Dropper itself. As always, quickness counts for a lot.

Shoot the skulls. Aim for the red eye

Make some alien jelly.

ROLLING STONES

Near the cliff top you'll encounter huge stones that gather no moss. In the area indicated, jump straight up to set the stones rolling harmlessly by.

Jump up to release stones. Leap to the next ledge.

GETTING THE SPREADER

Look for swiftly rising Option Capsules where indicated. The Capsule to the right should have the Spreader, which is always your best weapon.

You'll have to be quick.

KNOW THE ENEMIES

Moving up the cliff face you'll encounter many permanent gun emplacements that pop up. Remember where they are and take them out quickly. The jet-pack troops attack from below. Use the Spreader against them.

Danger from below. Lie flat and shoot.

STAGE 6 Entry To HQ

This subterranean gauntlet run is lined with living organisms—things that chase you, spit at you, and worst of all chomp you like a Great White Shark. Danger will surround you on every side. A straight ahead attack is your best bet.

▲ START

THE ALIEN & THE SNAKE

A huge snake will appear from the side and circle around you. Attack this first and then go after the head of the alien in front of you. While the snake is gone, fire directly at the alien's head, but keep an eye open for red mites and the reappearance of the snake.

Stay in the middle of the screen and watch your sides.

LITTLE CRITTERS

Hordes of little alien creatures haunt the path you must take. They'll attack from every side, but they're relatively slow. Get the Spreader to wipe them out easily.

Keep an eye to the left and right.

You can run from danger.

BIG MOUTHS

These yawning jaws only multiply if you shoot them. They also appear at random. Your best strategy is to march straight ahead and shoot at the other creatures.

Big Mouths can appear anywhere.

Move straight ahead.

KNOW THY ENLMIES

Blue Mites inhabit this gloomy place. They're both slow and predictable, but you can easily forget them and that's dangerous. Big Red Mites will circle you, allowing other creatures to attack while you're trapped.

STAGE 7

THE CONQUANTON

▼ START

Congratulations, you've reached the strangest and most dangerous stage so far. Here you will face erupting pods and perilous plants and eventually come face to face with a nightmare.

LEAPING THE WALL

Just as you fall out of the bubble tunnel, shoot the capsule to the right. It contains the Spreader, but it appears very quickly so be ready for it the instant you leave the tunnel.

Shoot from safety.

Aliens leap from undamaged pods.

THE PURPLE PULPER

Half plant, half beast and entirely alien, this enemy advances slowly while firing burning spores. If you stand just out of range, however, and move back as it moves forward, you'll defeat it easily.

You'll have to keep shooting.

Watch your rear.

THE TEMPLE OF TERROR

This alien giant is vulnerable in the chest opening. Leap up and shoot at the opening while dodging the spiked balls. As you've learned, the Spreader will be a great advantage in this battle.

THE FINAL STAGE

Heat-seeking alien mines, explosive bubbles and swift monsters are just the beginning of what to expect in the last stage. Clearly Konami has spared no expense to challenge even the hottest Power Player. If you remember the basic strategies, though, and use the Spreader, you might just surprise yourself and make it all the way to the end. If you do, you'll certainly earn your stripes in the battle that follows. Our hats are off to all who succeed.

NINTENDO POWER AWARDS '89

Second
Annual

The hall is packed, the band is warming up and the lights are going down. That can only mean that it's time once again for the most prestigious event in the video game universe—the Nesters! And now to announce the winners, please welcome your host, Howard.

Best Graphics & Sound

The nuts and bolts look of Mega Man II made a big hit with our voters. Mechanical monsters like the Fan Fiend and Atomic Chicken give the game a high-tech feel that is complimented by a driving rock beat.

Mega Man II

Best Challenge

Anyone who has battled through to the end of *Ninja Gaiden* will agree with those who voted for this game. Every step is challenged by Jaquio's henchmen. And to become a master of the ninja arts and swordplay takes lightning reflexes.

Ninja Gaiden

Best Theme, Fun

They're America's favorite characters in a fast-action game—a combination that's tough to beat. Besides, what other game depends on the skillful use of nunchuks and pizza? We're talking weird but wonderful here.

Teenage Mutant Ninja Turtles

Best Play Control

When it comes to jumping, climbing, zapping enemies and using nifty items like levitation platforms, nothing comes close to *Mega Man II*. There are more ways to get through this game than days in the year.

Mega Man II

Best Character

He's the hero who does it all, from rescuing a princess to casting magic spells. Link, from *Zelda II: The Adventure of Link*, is puckish, lucky, persistent and loyal—qualities that win him friends wherever he goes.

Zelda II: The Adventure of Link

Best Ending

It's no mystery that *Ninja Gaiden* takes a second Nester with its stunning, surprise ending. The use of Cinema Displays to reveal plot between action sequences is a winner. The ending is well worth the effort.

Ninja Gaiden

Best Player vs. Player

When you and a friend scrimmage with *Tecmo Bowl*, you might just forget that you're playing on a computer. Intensity like that only comes from a human opponent, and great programming.

Tecmo Bowl

Overall

Teenage Mutant Ninja Turtles

This year the honors go to the turtles for Best Overall Video Game of 1989, and it's well deserved. The importance of the Fun Factor is clear—sophisticated graphics and complex game play alone are not enough. But combine them in a game like TMNT and you've got a hit. From the opening screen right on through to the end you're swept into the wild world of turtle triumphs and trouble. The play is challenging, the graphics excellent, the sound drives you on, and best of all you control the fate of Don, Leo, Mike and Raph as they track down clues leading to Shredder. Let's give them a big hand . . . or maybe a pizza.

The Nester Awards have been brought to you by all of our readers who took the time to fill out their ballots and send them in. Thanks for helping to make this the most exciting awards presentation ever. As you may have noticed, these awards are for all the games that were released during 1989. That means that the latest games like Super Mario Bros. 3 and Super C aren't eligible until next year when we hold the 3rd Annual Nintendo Power Awards.

Well, that's it for another year, gang. But with so many great games coming out it's never too early to start reviewing them. By filling out Power/Player Meters on Nintendo Power reviews, you'll have a great record of 1990 games by voting time next year. I'll see you then.

CODE NAME: VIPER

Go Ahead! Make Kenny's Day!

When last we saw Kenny Smith, agent of Viper, he was hot on the trail of a massive drug cartel, busting their bases in South America. He is one man against an army of narco-terrorists, alone in a hostile environment with only his trusty .45 between him and certain death. The stage is set for action in Capcom's Code Name: Viper!

Know The Enemy Fool Soldiers

Each enemy has different characteristics; some are quick, some are tough and some have weapons to fight back with. Know the enemy to avoid unpleasant surprises. The color of their uniforms is the tip-off.

SAVE THE HOSTAGES

Rescue 16 hostages and you'll get an extra continue.

GREY	YELLOW	RED	WHITE	GREEN	
					
One shot knocks this guy out. He's slow and doesn't really fight back.	It takes two shots to put this guy down for the count. He's quicker than the Grey Soldier.	He takes two hits and has a gun, though he's hesitant to use it.	The Red Soldier is a runner—he's fast but doesn't pack a piece.	White Soldiers are fast on the draw and tough to bring down.	These guys are anything but yellow—they attack on sight.

There are many helpful items Kenny can find hidden in the drug cartel's bases. Be sure to note the locations of these valuable things. Items may appear in different spots depending on the difficulty level.

	Extra .45 Ammo can be found hidden in the bases.		A Heart adds a box to Kenny's life meter.
	Machine Guns are cached throughout the hideouts, but have limited ammo.		A 1-Up gives Kenny another life.
	The Stop Watch adds to the time remaining to complete the mission.		The Bomb Kenny gets from the commando allows him to blow up the base.

Stage One—Brazilian Jungle

Kenny's first mission takes him through the steaming Brazilian jungle and a village well defended by troops of the drug syndicate. Treacherous waterfalls and deadly snipers will make this first mission a tough one.

BE SURE TO SCORE A MACHINE GUN

This gun will mow down the opposition. Collect this whenever possible.

Don't waste bullets.

DON'T LET THE FROGMEN JUMP YOU!

Don't try to outrun the Frogmen, but eliminate them as soon as they appear. They bounce around unpredictably.

Frogmen are dangerous foes.

Notice which doors enemies come out of and plan your strategy accordingly.

SHOOT THE SNIPERS SWIFTLY
Inch forward cautiously and shoot them as soon as they appear on the edge of the screen.

It's usually impossible to dodge a sniper's fire.

Pick him off at a safe distance.

STAGE 1 CONTINUED

FIRST MISSION ACCOMPLISHED!

Kenny has rescued a captured commando and the cartel's first base lies in ruins. His rescued comrade has a tiny fragment of the cartel's evil master plan. Kenny must find the meaning behind this message!

FIRST BASE

TM&© 1989 CAPCOM USA, INC.

Stage 2—Weapon Warehouse

To equip their foot soldiers, the cartel has amassed a gigantic stockpile of weapons in this warehouse located near the mouth of the Amazon River. Huge crates and irregular stacks of boxes staked out by soldiers make this a treacherous enemy outpost. Kenny arrives on a moonlit night to put out the lights in this base.

Most of the personnel in the warehouse are Blue Foot Soldiers. Remember that you need to hit them twice to take them out of the action.

PACKAGED AND READY FOR SHIPMENT!

Cartel soldiers with machine guns are hiding inside some of the crates. Once you know where they are, get in a position to nail them as quickly as you can, before they can shoot you.

PERILOUS PILES OF PACKING CRATES!

Steps formed by stacks of boxes can be used to your strategic advantage. Avoid shots by ducking or jumping down. The slightest hit by your gun will affect the enemy, so don't worry about scoring direct hits.

If you're on top of a building and enemies lurk below, don't jump down into their midst, or you'll get hit. Wait for them to jump up into your field of fire.

This is one unfriendly crowd!

Those foot soldiers love to jump. Be sure to nail them when they do.

SPIKY BOMBS ADD TO THE RISK!

One area of the warehouse is defended by "Large Bombs" which drop from the ceiling and take out intruders. They are easy to avoid once you know the area where they fall.

HOT STUFF!

The end is near when you encounter the Napalm Soldier. If you don't have the commando's bomb, go back and get it. If you do have it, run past the Napalm Soldier and toss it in the door at the end of the stage.

SECRETS OF THE REVOLVING DOORS.

HIDE INSIDE!

Sometimes when you enter a door, enemies will come along and wait outside to ambush you. But, you can stay inside a door for as long as you want by holding Up on the Control Pad, and the enemies will usually move on.

AMBUSH THE ENEMY!

Burst out of the door with your gun blazing! If an enemy is directly in front of the door, you can mow him down before he has a chance to hit you. To play it safe though, remain inside until the coast is clear.

To change the direction when crouching, press diagonally towards the direction you want and fire.

STAGE 2 CONTINUED

SECOND MISSION ACCOMPLISHED!

Destroying the cartel's weapon warehouse severely damages their operations. The commando Kenny rescues here will have even more information on the cartel's plans, but the scrap of paper he has is just a fragment and is practically meaningless. Kenny knows he must act quickly to stop the vile drug smuggler's schemes.

Stage 3—Abandoned Village

Hounded by drug traffickers, the inhabitants of this village in northern Chile have fled to safer pastures. The cartel has since fortified the old colonial buildings with sandbags and even an old school bus, making this a death trap for your average secret agent. But Kenny Smith, last agent of Viper, is not your average agent—he is the best there is.

IT TAKES PERFECT TIMING

Foot soldiers here have taken up strong defensive positions behind sturdy obstacles. But they're cautious and take a lot of time between each shot they squeeze off. Duck down and study the timing of their shots.

Shoot when they're ready to stand.

CREEP FORWARD CAUTIOUSLY

Sometimes it pays to inch forward and sneak up on the enemy, especially when you're in unfamiliar terrain.

ASSASSIN'S AMBUSH

Advance slowly and take out the camouflaged mercenaries here one at a time. Or, run past them quickly and then turn and shoot as fast as you can.

MORE RASCALS IN THE RAFTERS

Inside the town hall, green suited goons wait to get the drop on you from the rafters. It's another case where patience pays off.

Be sure to get the Heart here. It will greatly increase your chances of survival.

SCHOOL BUS HIDEOUT

A Sniper with an automatic rifle can pin you down with diagonal cross fire if you're not careful, so look out!

GET THESE CRAZY CONDORS!

The cartel has trained Condors to harass those unfamiliar to them. At this point be ready for their attack.

THIRD MISSION ACCOMPLISHED

The letter outlining the cartel's plans is shaping up, but it still leaves out important details.

STAGE 3 CONTINUED

INTO EVEN MORE DANGER!

So far, Kenny's mission has been a virtual suicide run. Judging from the readiness of the enemies he's encountered, someone must have tipped off the cartel that he was coming. But who? Kenny doesn't have time to ponder this question though, because there's more danger ahead!

Stage 4—Incan Ruins

A fabulous lost city high in the Andes mountains has been taken over by the drug lords. Many strange traps set by the ancient inhabitants still function and they add an extra element of hazard to Kenny's journey through the place.

Stage 5—Underground Prison

This prison was built by a mad scientist to contain the subjects of his experiments. A few of his victims, the Maniacs, still haunt the cells. The otherwise empty dungeon is the perfect place for the drug cartel to imprison their enemies.

Stage 6—Drug Lab

Kenny must make his way up through a high-tech tower of glass elevators to reach the heart of a massive drug laboratory. The maze-like climb challenges Kenny as none of his missions have so far.

Stage 7—Mechanized Warehouse

Heavily guarded by menacing mechanical traps and beds of deadly spikes, this warehouse should be the last base Kenny has to deal with. The drug cartel's plan will be fully pieced together by the time he finishes here. But is his mission accomplished?

And Now...

Kenny must make one final trip to nab the ring leader of the giant drug cartel. Now that Kenny knows the identity of this mystery man, his mission to stop him becomes all the more imperative. The war on drugs must be won!

CODE NAME: VIPER

Before they were captured, the other Viper commandos were able to get these maps to Kenny at Headquarters. Use them to your advantage!

SNEAKY SNIPER

Quick reflexes will enable you to take out snipers. Shoot once and then jump down to avoid their fire.

Stage 4

START

THE ANCIENT STATUE
This trap can be avoided by jumping to a different level, or by going into a door and staying inside until the sliding statue has moved past.

Stage 5

START

MECHANICAL STEAM TRAPS
These weird traps look deadly, but they are easy to avoid once you've studied their movement patterns.

DON'T MISS THIS 1-UP!

MANIACS!
Ghastly survivors of a mad professor's experiments, these half-starved fiends attack anything that moves. It's best to put them out of their misery when they're in the middle of slipping out of their cells. They go crazy once they sense their prey.

Stage 7

START

CRAZY CONVEYOR BELTS
It takes practice to get the hang of moving about on these conveyor belts. Sometimes quick jumping works best, other times it pays to be patient. As a general rule, you'll want to go in the opposite direction from the way the conveyor will take you.

BOX SNIPERS
They have been stationed in this warehouse also.

MECHANICAL MASHERS
The key to getting past the mechanical mashers here is to watch the patterns they move in closely. Wait for an opening and go for it!

STEEL GRIDERS!
To add to the hazard of the conveyor belts, steel girders will fall from the ceiling. In this area, advance cautiously and if you see a girder falling, hold your position on the conveyor belt by jumping straight up. Once the girder has fallen, it's safe to move on.

END of STAGE 7

Extra Ammo	1-Up
Stop Watch	Sniper

Stage 6

END of STAGE 6

THE DRUG LAB TOWER
In the drug lab tower, there is more than one path you can take to the top. One path is shorter, but heavily guarded, the other longer, but with less enemy opposition. As long as he doesn't get hit, Kenny can survive rather incredible falls. Jumping off a ledge can sometimes be a good tactic to bypass difficult areas.

NEED A LIFT?
If you get to the top of an elevator and it looks like a sniper is waiting for you, go down and come back up. Sometimes he'll be gone when you return.

START

BURAI FIGHTER™

無頼戦士

"BURAI FIGHTER, LISTEN CLOSELY.
YOUR MISSION IS TO PENETRATE THE ALIEN FORTRESS.
THEY WILL BE EXPECTING A FULL FRONTAL ATTACK,
SO A LONE ATTACKER LIKE YOU MAY GO UNNOTICED AT FIRST.
GOOD LUCK, BURAI FIGHTER, YOU'LL NEED IT!"

STAGE-1

START

Blast this enemy from the correct angle, and you'll be rewarded with a Power-Up item.

Wait for the Power-Up item to change into your favorite weapon: lasers, missiles, or ring-weapons.

Maneuver behind this enemy and you'll be able to hit his weak point. Be sure to dodge the shooting energy balls!

Shoot out the three energy pods to defeat this boss. The first one is easy to hit, but the next two will take some fancy flying.

Avoid his flailing arms and shoot the energy pods.

BOSS

STAGE-2

You will have to learn the pattern of these spinning arms of destruction.

START

Go up and grab the two items, then back track the way you came and go down. If you move too slowly, you'll be crushed by the ceiling.

There are many Power-Up items in this area that are difficult to obtain. If you are not sure you can retrieve an item safely, leave it behind. There are plenty of items in this stage.

Burai Fighter! Choose wisely the Power-Up items you take and those you leave behind.

This is a very difficult Power-Up item to get. You must grab it and then go up quickly to avoid being trapped.

To defeat this snake-like creature you must destroy the three colored sections in his body. The snake will then turn into three smaller snakes that you must defeat as well.

Go for the colored sections first!

Blast the tail end of each small snake.

BASIC TECHNIQUES

As the Burai Fighter, you will be able to shoot in eight different directions. The B Button may be held down for continuous fire. To change your firing direction, stop shooting and move in the direction you wish to fire before pressing the B Button again.

You can fly up into this area and retrieve the Power-Up items that look like they are impossible to get to.

Push Up on your Control Pad to enter this area.

Just before you get to the boss, are two Speed and two Power-Up items.

STAGE-3

BOSS

This stage is very different from the other stages. The location of the boss changes each time you play, and all of the areas look alike. You will be shown a rough map before the stage begins showing the new location of the boss.

YOU

BOSS

YOU

A CHART TO FLY BY

Use this chart to determine how far you must fly to find the boss. Remember, each time you play, the boss location will change and you will have to decide which is the best way to go about finding him again.

STAGE-4

The trick in this area is to center yourself on the screen and shoot straight down.

This special weapon circles your ship for added protection.

You can find Power-Up items in these alcoves, and there are no enemies to get in your way either.

START

These passages are very narrow. Avoid the walls or risk ending your mission quickly.

Jet forward and then back to trigger the falling blocks in this area.

BOSS

How do you defeat this stage boss?

To defeat this boss, maneuver underneath him and shoot up. Be sure to move out from under him quickly when he lands, however, or you'll be crushed.

Get under him and fire at his feet.

STAGE-5

You are now nearing the heart of the alien base, and the enemies screaming down the passage towards you now are both stronger and faster than in previous stages. This stage is like a maze, and the combination of vertical and horizontal scrolling make it very difficult.

The best strategy here is to memorize the pattern of the passage and the enemy fighters. This will take some practice.

You will have to get to this safe spot quickly, or you'll be munched against the wall.

Be ready! The game begins to scroll at high-speed here.

You will have to fight two bosses here: The Fire Spitter and the Blue Phoenix.

STAGE-6

This stage is very similar to Stage 3. The location of the boss is random again, and you will have to use a similar map to locate him. However, this time there will be many more enemies, and the action will speed up considerably.

This map is used in the same manner as the map in Stage 3. Plan your attack route carefully.

This boss can be defeated the same way you beat the boss in Stage 3.

STAGE-7

This is the final stage. You have almost completed your mission, but you can be sure that your enemies still have a few tricks up their alien sleeves. It will take all of your skills to navigate through these final passageways.

In the middle of this stage are some robots that try to latch onto you. These are very difficult to avoid without Speed Power-Ups.

WHAT AWAITS YOU IN THE HEART OF THE ALIEN FORTRESS? NO ONE KNOWS FOR SURE. WILL YOU BE THE FIRST BURAI FIGHTER TO ESCAPE ALIVE?

Adventures Of Lolo 2
Rocket Ranger
Wheel of Fortune Family Edition
Tombs And Treasure
Journey to Silius

We think that these "New Games" have lots to offer, but we just didn't have room in this issue to give them all full reviews. Each game has several unique features and megabits of excitement to speed up those endless days before summer vacation. So if the springtime doldrums are leaving your NES cold, heat it up with these titles.

ADVENTURES OF LOLO 2™

TM Hal America © 1987-1989 Hal America

Once again Lala has fallen into evil clutches and Lolo bravely sets off to save her. This time he must solve the puzzles of a tower that soars to the sky. The same dastardly cast of enemies is back from the original Adventures of Lolo, and it's clear they wouldn't mind feasting on a

Lolo-kabob. Like Lolo's first classic adventure, the trick to each room will involve lots of strategy. Move frames to block enemy attacks, collect Hearts and Power items, shoot enemies and even use them to achieve your own ends.

Plan Your Attack

Every room presents a new and exciting challenge. Your first move should be to stay put until you've studied the layout of the room. Every frame has a purpose of one sort or another and every enemy can be blocked, dodged or defeated by Lolo.

Treasure Chest

Collect the Hearts then go to the Treasure Chest. All enemies will disappear.

Emerald Frame

Trap enemies by pushing Emerald Frames to strategic locations.

Helpful Enemies

Use Rocky or Leeper as a shield to block enemy shots by walking behind him.

74h Floor Warp

Shoot Snakey twice and push an Emerald Framer to where the Snakey was.

Lolo's Enemies

Snakey is harmless, but sometimes helpful, too.

Leeper falls asleep when he touches Lolo.

Alma rolls about and can defeat Lolo with a touch.

Skull comes to life when Lolo has every Heart.

Gol fires flaming breath once Lolo has the Hearts.

Rocky tries to push Lolo into a corner and pin him.

Medusa shoots the deadly Evil Eye.

Don Medusa roams about and fires the Evil Eye.

Tips For Tough Rooms

On the island, take the left Heart Framer and turn the left bottom Gol into an egg. Float on the egg to the Right and Up. Quickly grab the Heart, get back on the egg and move Up.

You have to be very fast getting the second Heart.

In this 7th Floor room, push the Emerald Framer just to the left of the Medusa. Cross the stream and wait to cross the path when the Alma shields Lolo from the Medusa's Evil Eye.

Grab the Hearts and return using the same method.

ROCKET RANGER

ROCKET RANGER™

TM & © C. Namco

A special rocket suit and who is known only as The Rocket Ranger. As you play Rocket Ranger the story continues to unfold according to the actions that you take. There's great action and graphics, too.

The Leutonian Empire Is Conquering Earth

A space age Rocket suit, over-the-shoulder combat views and a text story that sums up the action put Rocket Ranger in an orbit of its own.

Not every country is held by the enemy. Flying to the wrong country wastes precious fuel.

Messages will help you decide your course of action.

Your first target is the Hindenberg, a great airship racing back to the Leutonian capitol in Europe with captives.

Every lab is guarded, so you'll have to fight to gain the rocket parts you need.

Aerial patrols will attack you in the skies above the Leutonian headquarters.

Attack the jungle base by shooting the open windows and dodging enemy fire.

Save Our Species

Run out of gas in the middle of nowhere? An S.O.S. will save your skin.

Use S.O.S. to call for a rescue mission. You'll lose time, though, so don't waste precious fuel.

In a dogfight, quickly move the Rocket Ranger to a position just above the lead aircraft.

Stay on target and fire. The enemy will continue to approach in waves.

Five rocket components are needed to build a rocket that can take you to the moon. There you must stop the Leutonians from carrying out their evil plans.

WHEEL OF FORTUNE FAMILY ED.™

R & © 1990 Colson Productions, Inc. Program and Audiovisual by Rare Ltd.

The Family Edition of this latest GameTek version of Wheel of Fortune has all the features of previous games and a few added extras. There are some new puzzle categories, tougher puzzles in all categories and new prizes in the final round. One to three players compete

against the computer or each other. The rules will be familiar to most people from the popular TV show. Wheel of Fortune Family Edition is the closest thing to actually being there, and it's probably more fun.

The Choice Is Yours

An older version of the game, Wheel of Fortune Jr., features puzzles that kids will be more familiar with than adults,

whereas Wheel of Fortune Family Edition will challenge everyone. And with a new randomizing function added by GameTek, you won't run into the same puzzle over and over, which was a problem with the original Wheel of Fortune Game Pak.

JOURNEY TO SILIUS™

© 1990 Sun Corporation of America

On a war ravaged planet, Jay sets out to avenge the death of his father. He learns that the terrorists who threaten the existence of the space colony were involved, and now he must finish the mission his father began. Armed with only a pistol and shotgun as he

makes his way through the ruins, Jay finds better weapons and Power Ups as he progresses. It takes fast reflexes to dodge the mortar rounds and rocket launchers, not to mention the terrorist controlled killer robots. And it gets worse with every step on the Journey To Silius!

Look For Powerful Weapons In Each Stage

Different situations require different weapons. A quick switch using the subscreen and you're equipped for the worst.

The Hand Gun is your most basic weapon. It won't run out of ammo.

The Shotgun fires in a fan pattern. It's good for high or low targets.

The power of rapid fire is what you get with the Machine Gun.

Missiles can home in on a target, and they're very powerful.

The trick is to balance your use of the weapons that are available. The Shotgun fires a wide pattern, the Hand Gun won't run out of ammo.

Robot Walkers stomp on Jay.

Hover Robots shoot downward.

Beware of the Rocket Launcher.

Bunker Guns pop up and shoot. They're easy to destroy from behind.

The Blue Capsule boosts Gun Power.

Red capsules add to Life Power.

Defeat the Cannon and you will earn the Machine Gun

The streets of Gotham City are crawling with Napier's goons and lookouts. Fight them off and make your way to the factory.

Blast the shaded Bricks to uncover special items and earn points, energy or new abilities.

The fight continues inside the Axis Chemical Factory. Climb the stairs cautiously and don't drop between platforms.

You can collect as many as three Option Weapons!

Collect the "P" symbol for super weapon strength.

The action is even more intense deep in the factory. Napier is close. Keep your guard up.

Get the Batarang and use it for the rest of the fight.

Break all the blocks for a clear jump before you collect the 1-Up here.

How can you possibly fear a villain who smiles so much?

SPECIAL ITEMS KEY		
G=Weapon Strength Increase	H=Energy Increase	P=Power Weapon
D=Weapon Strength Decrease	O=Option Weapon	N=Normal Weapon
B=Bonus Points	OS=Option Speed Increase	S=Short and Rapid Shots
	W=Wave Weapon	R=Batarang

Transformed, Napier has begun a reign of terror as the Joker. Your search leads to the Museum.

New Cinema scenes tell the story of Batman's Game Boy adventure.

Power on. The Bat Symbol appears twisting, turning. The music builds, the symbol slows and fades, and Batman's new Game Boy adventure from Sunsoft begins. Batman observes from his hidden headquarters that the police are on Jack Napier's trail. The police know that if they get Boss Grissom's "top guy," he'll lead them to Grissom. Batman knows this, too. What he doesn't know is that he's about to embark on a four-stage journey that will pit him against the city's newest crime boss, The Joker.

Jump on the platforms above the street to avoid the enemies down below.

TO STAGE 1-2 Collect the Option Weapon and a Bat Symbol rotates around Batman.

The Smoke Pellet will pulverize all enemies on the screen at once.

Stop at the right height and defeat the enemies on the next platform.

Wait for this bug-like creature to climb the stairs and blast it on level ground.

Wait until the moving platforms get close to each other and jump!

You may be able to collect this 1-Up with the right touch but it's best just to leave it alone.

Take to the air in the Batwing and fight The Joker's minions above Gotham City.

The Joker has fled to the Gotham City Cathedral. Match wits with him and put an end to his evil reign.

STOP NAPIER!

Jack Napier is a tough one. Use your Batarang or Normal Weapon against him and avoid his shots. Jump over him when he gets close.

To fight Napier, knock him into the vat of acid below and turn him into the Joker.

New for Coming Up! Game Boy!

Game Boy games ready for release in the near future will feature some familiar characters from games designed for the NES and some brand new characters and ideas. Two of the hottest examples of the former send some super popular fighters off on new challenges and adventures. Here's a sneak peek at Double Dragon and Fortress of Fear: Wizards and Warriors, Chapter X!

More To Come

There's a lot in the works for Game Boy. The arcade hit, Dragon's Lair, which featured animated scenes and quick decision game play is being developed by CSG Imagesoft for later this year. They're also working on a soccer game. Wrestlemania is being developed for Game Boy by Acclaim. Nexoft is working on Power Mission, which has been described as a naval battle simulation with plenty of options and weapons. Also, GameTek is considering their game show games, Jeopardy and Wheel of Fortune for Game Boy. We think it's a great idea!

DOUBLE DRAGON

Billy Lee is back in action! Tradewest is developing their original NES version of this street fighting classic for Game Boy. From what we've seen of the game, it looks like there will be plenty of sweaty palm action and fast flying fists.

The name is the same but the adventure has changed.

◀ Fight off the Shadow Warriors.

▶ Pick up the Weapons that enemies drop.

◀ The two-player game is in a closed arena.

WIZARDS OF WARRIORS X: FORTRESS OF FEAR

The popular character Kuros from Wizards and Warriors fame is making his way to Game Boy straight from the hit NES sequel, IronSword. The folks from Acclaim have dubbed this one Chapter X. If we find out what happened to Chapters III through IX, we'll let you know.

Kuros enters a new evil castle and begins another journey to defeat sinister beings.

◀ Jump and jabbing play a big role in this adventure.

▶ Collect Keys to open Treasure Chests.

◀ The Treasure Chests contain special items.

MAGIC OF SCHEHERAZADE HOW DO I GET THROUGH THE UNDERGROUND MAZE?

In Chapter Two of this journey through the lands of Arabia, you'll come across a maze that leads to the monkey, Supica. The most challenging part of the maze is a wide path with hidden traps that sends you to the outside. Start on the right side of the path and walk up until you reach the first trap. Then begin again, remember where the trap is and move to the left side before you get to it. Walk on until you hit the next trap, and note its location. When you return and approach this trap, move to the other side of the path. Continue to zig and zag, noting all of the traps, so that you never fall into

the same trap twice. When you finally reach Supica, you'll find a well trained guide to get you through the Western Desert.

Supica will offer guidance through the Western Desert.

Walk to the edge of the trap, move to the other side and keep going.

8 EYES IN WHAT ORDER SHOULD I EXPLORE THE COUNTRIES?

We've found that the best order to go through the levels is Spain first, then Italy, Egypt, India, Africa, Germany, Arabia, and finally, the House of Ruth. The Swords that you receive for each level will help you to defeat the enemy at the end of the next level. In the chambers of the enemies at the end of each level, you can find special hidden Jars that will give you extra life, extra power or tem-

porary invincibility. At the end, in the House of Ruth, place the Jewels in their setting in this order:

Yellow, White, Green, Orange, Blue, Purple, Red, Black.

Explore the countries in the order listed above.

Search for hidden Jars in the chambers of the enemies at the end of each level.

BATTLE OF OLYMPUS HOW DO I MAKE THE DIFFICULT JUMP IN TARTARUS?

Gravity will play tricks on you in this strange section of Ancient Greece. You can stick to the ceiling upside down here. At the beginning of the area there is a jump that, right side up, is impossible. The only way to make it is to stay on the ceiling and jump upside down with a quick tap of the button!

Stay on the ceiling.

Leap upside down!

BATTLE OF OLYMPUS WHERE IS THE FLASK?

The life replenishing Flask is an important item to have on your adventure. You'll find it in Larconia. When you reach the second screen, kneel down and hit the fifth column. You can refill the Flask by kneeling in any Fountain. Then you'll be able to get more energy at crucial points.

Kneel and hit this column to find the Flask.

Fill the Flask in a fountain for more energy.

BATTLE OF OLYMPUS WHERE IS THE MOONBEAM?

This important item will shed some light on your quest and help you see the Shadow of Hades. You'll get the Moonbeam by talking to Artemis who is waiting in the maze-like building of Phrygia. When you get to Phrygia, enter the second door that you come to and defeat the Cobra inside. After the Cobra is gone, you'll be able to climb the

stairs and enter the door on top. Jump over the gap to the left here and climb more steps. Beat the Cobra that is inside the door on top of the steps. Once the Cobra is defeated, you'll be able to climb a flight of stairs, then go to the right and down a second flight of stairs. Jump over another gap to the left and enter the door. Inside, climb the steps to the top, jump over

gaps all of the way to the right and go down the stairs until you reach a door. Enter the door, defeat the Cobra and go down more stairs. Jump up to the second door to the left and enter. Then climb the stairs to the top, enter one last door and Artemis will be there. It's a long hike, but worth it!

Enter here.

Work your way through the maze.

Talk to Artemis and you'll receive the Moonbeam.

WILLOW HOW DO I GET THE SPECTER SPELL?

After you receive the Spirit's Crest in the Rocky Mountain, return to the area where you found Sorsia. She won't be there anymore, so you'll be able to pass. Work around to the north and east and you will eventually find the Monster's Bone which gives you the Specter Spell.

Sorsia will no longer block the path, so move on to the northeast.

The Specter Spell will allow you to change dramatically.

IRONSWORD HOW DO I GET THE CROWN?

In the first area of the Fire Level, climb the mountain until you reach the Dragon. Enter the door to the right of the Dragon and activate the Fleetfoot Spell. This will give you super speed for a few seconds. Get a good running start and leap off the ledge to the right. Keep jumping in the air for a little more distance and when you land on the point below, move to the right and you'll find the Crown in a chest. Return to the Dragon with the Crown, climb the mountain to the very top and press Down on the Control Pad to move on to the next area.

1) Enter the door to the right of the Dragon.

2) Activate the Fleetfoot Spell.

3) Keep jumping in the air.

4) You made it!

SHADOWGATE: HOW DO I DEFEAT THE HELLHOUND?

This angry canine will only let you pass if you extinguish his fury with the mystical Water. You'll find the Water in the Laboratory. Use the Hook in the lower left corner of the Laboratory and it will lift a stone out of the floor, revealing the Water. Once you use this magic liquid on the Hellhound, you'll be free to move on to the Castle Turret. Remember to take the Horn before you leave.

Use the Hook and the Water will appear.

Use the Water on the Hellhound.

SHADOWGATE: WHAT DO I DO AT THE KING'S THRONE?

The King has not ruled over the Castle Shadowgate for some time as only his skeleton remains. He does, though, carry a secret with him and he will only reveal it if you place the Scepter in his hand. The Crest on the

wall will open to reveal a ring shaped hole. If you played the Flute in the room where you received it, then you have the Ring. Use the Ring on this hole. The King will move and a new passage will be uncovered.

SHADOWGATE: THERE IS A SNAKE IN MY PATH. WHAT DO I DO?

This mean looking reptile will confront you after you walk very lightly (with the help of Potion No. 2) over the rickety suspension bridge. You'll need the Wand to deal with the Snake and you'll find this elusive item far away, deep in the Castle. When you get to the Observatory, open the Star Map to reveal the Rod. Take the Rod to the Balcony that is close to the Banquet Room and use it on the hole in the wall. A hand will appear and

give you the Wand. Holding the Wand, cross the bridge again and use it on the Snake.

Open the Star Map in the Observatory.

Use the Rod on the hole in the wall.

Use the Wand on the Snake.

SUPER MARIO BROS. 3

■ FROM AGENT # 123

1-Up Frenzy

Start your adventure through the Mushroom Kingdoms with a ton of 1-Ups! In World 1-2, collect the Mushroom and Leaf to become Raccoon Mario, then go back to the tall pipe that produces Goombas. When a lot of Goombas are on the ground, press and hold the A Button to jump as high as possible, then float to the ground by pressing 'A' quickly and repeatedly and stomp one of the Goombas. Jump again without touching the ground and stomp another Goomba. Repeat this method, never touching the ground and get each Goomba as it drops. First, you'll earn progressively more points. Then, you'll earn 1-Ups. Continue for as long as time allows. Watch for more Super Mario Bros. 3 tips in the June Strategy Guide!

Jump, float down and aim for a Goomba. If you don't touch the ground, you'll earn a lot of points and, eventually, 1-Ups!

A QUICK TIP:

Here's how you can reverse your swing in Lee Trevino's Fighting Golf. While selecting your player, hold left on the Control Pad and then press the A Button. You'll tee-off left-handed!

BATMAN™

■ FROM AGENT # 708

Punch and Clutch

While the Bomb releasing Drop Claws at first seem like a threat, you can use them to your advantage. Stand very close to the Drop Claw target area and punch the falling Bombs quickly and repeatedly. You'll collect items as soon as the Bombs produce them and, at the same time, continue to blast Bombs. This method works best if you have a controller with a turbo function so you can punch at super speed.

Keep punching rapidly for Power-Ups.

■ FROM AGENT # 525

Maze Moves

The maze of Castle Terenea can be quite confusing to navigate as there are many teleport doors. Our Agents have come up with a strategy, though, that will make moving through the maze a cinch. Just remember to teleport only through the doors that are guarded by Skeletons. Defeat the Skeletons, press Up on the Control Pad and go!

Teleport where the Skeletons are.

FROM AGENT # 999

Powerful Women's Team

You can create an above average women's team in this versatile baseball exercise. After you select the Make Team option, move the cursor Down, Right, Left, Down, Down, Right, Up, Up, Down, Up, Down, Up and then press the A Button. The question "What is a Wren?" will appear. Erase the question and input the answer, "A Bird." (remember the period). The question "When isn't it?" will then be displayed. Erase and answer "When it is." You'll then be free to pick your team logo and view your players. The team will still be a mixed bag of talent but, on the average, the players will be a notch better than players that are picked without the code.

Answer these simple questions and you'll be rewarded with a better than average team.

FROM AGENT # 866

Shortcut

Our Agents on the road have found a way to skip to the last enemy in each stage of this cross country adventure. While you're playing, press the Start Button to pause the game. Then press and hold the A and B Buttons and Up and Left on the Control Pad. After you cycle through all of the weapons by repeatedly pressing the Select Button, press the Start Button and in seconds you'll be at the end of the stage!

Cut to the end of any stage!

FROM AGENT # 924

Password Bonanza

The code has been cracked! Our Agents have found out how to begin in Mega Man II with any or all of the special weapons and any number of Energy Tanks. The unique Mega Man II password consists of a five by five grid with nine highlighted squares. The top row of a valid password always has one mark and the position of that mark dictates the number of Energy Tanks that Mega Man will have. The positions of the other eight marks determine which weapons Mega Man will possess. The table below shows the five possible Energy Tank totals and the corresponding password positions for the special weapons. Choose the number of Energy Tanks that you would like to start with, then decide which of Dr. Wily's creations should be defeated (which means you'll have the special weapon of that character) and which ones should be still a threat. Enter the top position to obtain the weapon. The bottom position contains no weapon.

Hidden Rooms

The key to success in this pocket sized adventure through Transylvania is to keep your weapon powered up. Our Agents have discovered hidden rooms in each stage containing Candles that are packed with Power-Ups. In the first stage, as you climb the fifth rope, keep climbing and you'll ascend into a secret chamber with no enemies and several Candles. Whip the Candles and take in the rewards. The other rooms are hidden as shown in Stages Two, Three and Four.

1-UP

The first Candle that you come to in Stage One will net you nothing more than a Coin if you break it with your Whip. Pass it by, though, and the eleventh Candle will reveal a 1-Up when broken. In this case, passing up a small reward pays off big later.

Don't hit the first Candle and later on you'll earn a 1-Up.

STAGE ONE

Keep climbing on the last rope, up through the bricks to enter a hidden room.

STAGE TWO

Blast the Eye on the second step to gain access to a room of treasures.

STAGE THREE

Halfway up the rope, look for a place to walk through the bricks.

STAGE FOUR

Float in mid-air near the top of this room and climb an invisible rope.

FROM AGENT # 444

Triple Play

The challenge of this eerie game doesn't stop after you have conquered the House of Ruth the first time. There are a total of three demanding quests in the game. While the adventure is basically the same, the enemies are stronger and more difficult to defeat in the Second and Third Quests. To go straight to the Second Quest, enter the password "TAXANTAXAN" and, for a real challenge, go to the Third Quest with the Password, "FINALSTAGE." Get ready for a tough battle with a ton of hard to beat creatures.

Enter these special Passwords to adventure through the challenging Second and Third Quests.

River City

FROM AGENT # 919

Merlin's Mystery Shop

Most of the shops of River City are in Malls within plain sight. In one of the toughest parts of town, though, there's a hidden shop with some very valuable items. Merlin's Mystery Shop is located in the darkness of the Armstrong Thru-Way Tunnel. Stand under the fourth light from the left and push Up and a door will magically appear. Inside you'll find the most expensive and oddest items in the City. The Excaliber increases Weapon Strength, Will Power, Stamina and Maximum Power. Zeus' Wand increases Throw Power, Strength, Will Power, Stamina and Maximum Power. With the Rodan Wing, you can build Defense, Will Power, Stamina and Maximum Power. Buy the Gold Medal to raise Punch Power, Will Power, Stamina and Maximum Power. The Isis Scroll will increase your Throw Power.

Push Up under the fourth light and an odd shop with some unusual goods will open for business.

PHANTOM FIGHTER™

from FCI

TM Nichi Butsu ©1989 Pony Canyon

Martial arts and monsters aren't often mixed in comic books, television or movies, even though the combination is a pretty cool concept. If you don't believe the idea has potential, watch "Legend of the Seven Golden Vampires," starring Peter Cushing, when it comes on the late show. Or, play Phantom Fighter. In this game, elements of ancient Chinese legends of strange, floating, undead phan-

toms called Kyonshies are united with the excitement of block-busting Kung Fu. The results are unusual, to say the least. As Kenchi, a skilled martial artist, you must journey through eight villages infested with Kyonshies. Along the way, you'll learn new martial arts skills and collect powerful items. Phantom Fighter features smooth animation and fun dialogue between Kenchi and his bumbling assistant. The Kyonshi infested vil-

lages are nicely pictured and add to the fun of the game's theme. The Kyonshies, being zombies, are not particularly clever opponents, but they are tough and relentless attackers. Once you find the healing location in each village, you'll find yourself visiting it often. But whatever you do, don't give up! Become a true Phantom Fighter!

battle game has a look and feel similar to other games of the genre, such as Zanac and Star Soldier. However, its enemies and setting are unique and it has an interesting ship design feature

which allows you to customize, to a certain extent, the extra weapons you get during the game. Two players can take turns attacking the evil forces, and each can customize their own ship.

CASTLE OF DRAGON™

from SETA USA

TM SETA USA

More high fantasy action and adventure for the NES! The evil Dragon Master has kidnapped the king's beloved daughter, Amoreena, and taken her to the flame filled castle of Darklarza. Amoreena's only hope for rescue lies with the great warrior Geraden, who bravely sets out from Wenlary Castle to do battle with the Dragon Master.

Geraden starts out on his journey with a strong suit of armor. By defeating enemies, he'll collect tokens that increase the power of his suit as well as grant him better weaponry. Geraden's more powerful armor looks cooler than the suit he starts out with, plus it lets him take a lot of punishment. But be careful—his suit can only take so

much damage, and once his armor is gone even Geraden won't be able to stand up to the attacks of the Dragon Master's minions. Battle over 40 different monsters on your quest through eight perilous levels to the final encounter with the Dragon Master.

There's no continue, so try not to take too much damage.

SNOOPY

from **KEMCO-SEIKA**

TM United Features
© Schatz & Associates

Good Grief! America's favorite beagle, good ol' Snoopy, is on his way to Italy for a silly sports spectacular! With his cousin Spike and best buddy Woodstock, he'll participate in six wacky events: the sack race, boot throw, pogo, overboard, pile of pizza and river jump. Each event will test your gaming reflexes and funnybone too!

The action is displayed in great, cartoony graphics which capture some of the feel of Snoopy's classic animated specials. And

although the computer doesn't make a very tough competitor, against a friend, the fun and challenge really begins! Although this game is aimed at younger players, Snoopy fans of all ages are sure to enjoy the NES antics of their hero.

It's easy to beat the computer by using different turbo settings. On the fastest setting you can win Overboard, on the slowest setting you can win the Sack Race every time.

DUSTY DIAMOND'S ALL-STAR SOFTBALL

from **BRODERBUND**

TM © 1989 Shoseki Tokyo
TM & © 1990 Broderbund

Every year, diamond bums from all over the world gather in the mythical town of Mudville for the World's All-Star Softball Championship. The field has been narrowed to sixty of the wildest characters who ever swung a bat. Now, as manager, you must pick your team from this group of scoundrels and attempt to take them all the way.

One of the highlights of Dusty Diamond's Softball is the ability to pick your team, just like you do at school or a picnic. Each of the sixty

characters you can choose from has different hitting and fielding abilities; you'll need to experiment to find the perfect team. The tournament is played on six playing fields, each with its own "home rules". A password feature saves your standings, and you'll need to win five games to challenge the awesome "Amazons" team.

Pick your team carefully.

Can Diablo club one out of the park?

WORLD CHAMPIONSHIP WRESTLING™

from FCI

TM Turner Home Entertainment
© 1989 Pony Canyon

You control the moves of any of 12 top stars of the N.W.A. in World Championship Wrestling. Feel the crunch of Steve Williams' "Oklahoma Stampede" or get squashed by the "Belly To Belly Suplex" of 250 lb. "Dogface Gremlin" Rick Steiner (sounds painful). Other featured wrestlers include "Total Package" Lex Luger, Sting, Rick Flair, Ricky Steamboat and The Road Warriors: Hawk and Animal.

World Championship Wrestling offers the player many options. For example, two players can go head-to-head, or you can play alone against the computer. Wrestling solo or in tag teams is also an option, and in tag team mode you can pick your own duo. Before the match, each wrestler can pick four specialty moves to use. You can also set up a tournament, and a password will save your win-loss record. Like other wrestling games, controlling all the moves takes practice, and the game is more fun to play against a friend. However, one neat aspect of WCW is a computer opponent that reacts realistically.

Have you ever played the 8th hole at Pebble Beach, the 14th at St. Andrews, the 10th at Riviera and the 4th at Baltusrol in one outing on the links? Well now you can! Jack Nicklaus himself picked the 18 holes you'll play in "... Major Championship Golf". Selected for

their challenge, historical importance and natural beauty among other factors, every hole is unique. Play control on this game is a bit different than on other NES golf games, but still allows you to hook and slice the ball to make that dif-

ficult shot. You can set up the game to play at beginner or expert skill levels, skins or stroke play, and with a male or female player. By sharing controllers, up to four can play, against each other or the computer—you can even golf against Jack Nicklaus (or seven other golfers). So break out your clubs and do some major championship golfing!

ball feel of the game and the colorful graphics, the best thing about Rollerball is that it won't tilt!

Challenge the Skyscraper or take on a friend in Matchplay; Rollerball is two great pinball games in one! Skyscraper is a realistic pinball game played on four vertically scrolling screens. One to four players can join in the fun. Like a real pinball machine, Skyscraper has many targets, slots and gates that give you a chance to rack up bonus points if you hit them. Matchplay involves a two player simultaneous pinball duel between an elephant and a donkey. The object is to keep two balls constantly in play while hitting targets to reduce the other player's score. You can assign different handicap points for each player so players of different skill levels can compete equally. Besides the realistic pin-

CONFLICT™

from VIC TOKAI INC.

TM&© Vic Tokai Inc.

The world of modern mechanized warfare is the subject of this battle-field simulation, which gives you control of a modern assault force consisting of armored units, soldiers and aircraft. Your job is to take out the enemy's flag tank, and that task is easier said than done. Both sides have industrial com-

plexes that allow them to produce additional weaponry during the campaign, and scoring victories will give you credit to further build up your forces. This game makes a

great one-on-one war game simulation. It's not fast on the action, it plays more slowly, similar to a board game and it really challenges your strategic instincts. You

can also play the computer, a very tough opponent which usually has an advantage in any given scenario. Every player will be sure to have their own strategy and tactics in this game, but we found it best to play defensively at first, building up your forces before launching your attack.

Build as many ground to air attackers as possible.

Surround your factories and flag tank with them.

Build up strength and then attack.

TM Columbia Pictures

Something evil is brewing in New York's Museum of Modern Art, slime is spurting from the city's manholes and ghosts are terrorizing the citizens—who you gonna call? Ghostbusters! Fresh from their appearance in the hit movie Ghostbusters II, the ghostbusting

DOUBLE DARE

from **GAMETEK**

RS© 1988 MTV Networks Inc
Program and Audio-visual by Rare, Ltd.

The Mental Test

The Physical Challenge

Like the TV show on which it's based, Double Dare will challenge your mind as well as your reflexes. The mental challenges comes in the form of crazy trivia questions. It's pretty easy to beat the computer, but try playing against a fellow trivia buff for a real challenge. The physical challenges are, well, a bit more difficult to describe. For starters, try having yourself shot out of a cannon into a giant plate

of pasta. Or having to toss bananas into the paws of an enormous ape. We don't recommend trying these tricks at home, except that is, on your NES.

KID KOOL™

from **VIC TOKAI INC.**

TM&© Vic Tokai Inc

In a mysterious fantasy world of the past, a beloved king lies dying. The enemies of his kingdom are massing for an attack. He needs seven herbs to regain his health within three days, or the leaderless kingdom will be taken over. It's up to the cleverest kid in the kingdom, Kid Kool, to find the herbs. Zany enemies will make the mission difficult, but the Kid will have help from a magical little fur-ball pet. Kid Kool's action graphics have a

certain whimsical quality about them and will appeal to players of all ages.

Stomp these crazy creatures!

Be sure to have your little alien buddy with you!

Nintendo Power Visits Boeing Flight Simulators

What kind of video game weighs 10 tons, costs over 10 million dollars and hundreds of dollars an hour to play and operates with two 160 Megabyte main frame computers? A Boeing 747 Full Flight Simulator, that's what! These flight simulators are anything but toys, however. They are valuable teaching tools and help make air travel the safest way to go just about anywhere.

Recently, Nintendo product analysis was treated to a tour of the Boeing Commercial Flight Simulator Training Facility in Seattle, WA.

This is one big video game!

It was a chance to see an advanced application of computer technology and just plain have fun with what was to us the world's biggest and best video game! Boeing's flight simulators are serious business for the thousands of pilots and maintenance crew members who train on them every

year, however. During the rigorous training course, students learn the airplane inside and out, and practice all kinds of maneuvers, including emergency situations they hope will never occur in a real flight! After a tour of the facility, we were

Check out these great graphics.

allowed to try our hand at a take off and landing in a 747 Full Flight Simulator (or FFS for short). An FFS is the size of a small room and is complete with a cockpit mock-up using real instruments. The entire structure is mounted on hydraulic lifts which move in response to the cockpit controls. Combined with realistic computer graphics which are projected on mirrors outside of the cockpit windows, the FFS gives you an astounding degree of realism when you take the controls. With the engines all set up for us by one of the technicians, the takeoff was a simple maneuver. Once the plane reached 140 miles

per hour, we pulled back on the stick and were off into the wild blue yonder. The simulator can bank at up to a 35 degree angle, and so it feels like being in a real plane during takeoff or maneuvers. Boeing's flight simulators have large data bases which allow them to simulate flights to many real airports or to a generic computer generated airport. Landing the plane was a real test of reflexes and skill. However, Howard Phillips, Game Master that he is, actually did a respectable job of it. Others in our group weren't so lucky and usually ended up with less than perfect touch-downs. We left the simulator with a heightened respect for the pilots who daily land the planes at our nation's airports. Perhaps some day there will be a flight simulator for home use that comes as close to reality as Boeing's advanced flight simulators do. For now though, we'll have to stick with our NES, playing such games as Air Wolf, Infiltrator, Gaptain Skyhawk, Top Gun and Stealth ATF to experience some of the fun of flying.

Big News For Comic Fans

The further adventures of Mario and Luigi are on the horizon! No, we're not gossiping about Super Mario Bros. 4, we're talking about the Super Mario Bros. comic book! Voyager Communications Inc., a new comic book company, has recently begun production of comic books based not only on the cast of the Super Mario Bros. series, but other favorite Nintendo games and characters like The Legend of Zelda, Captain N, Metroid, Kid Icarus and Punch-Out!! All these titles will be presented under Voyager's comics imprint "Valiant." We asked Jim Shooter, president of Valiant, about what to look forward to in the new Nintendo series.

"Our goal for our Nintendo titles is to make comics that are clear and accessible to everyone, including those who aren't avid comic readers," Jim said. "We're trying a very straight-forward art style, sticking

with conventions that are well known. Our stories will be as interesting and entertaining as possible."

Valiant's Nintendo titles will explore areas of Mario and Luigi's personalities that are not seen in

exciting" Jim commented.

With Mario and Luigi in the starring roles, the results are, as you'd imagine, both entertaining and humorous.

Valiant's comics are available wherever toys are sold, at most World Of Nintendo outlets, comic

book specialty shops and by subscription. Some titles, such as "Super Mario Bros. Special Edition #1," "Nintendo Comics System" and "Super Mario Bros. #1" have already been released, and should be available in stores near you. In May, "Captain N: Game Master #1" and "The Legend of Zelda #1" will be added to Valiant's monthly roster. Future titles based on other games and characters are in the works. World Class Service Now Available

One of the keys to the Nintendo Entertainment System's success is the great network of product support that Nintendo has established. An example of the continuing strive is the Nintendo World Class Service program which will soon be available at many World Of Nintendo retailers.

By using a newly developed Nintendo Test Station, your local participating World Of Nintendo retailer can quickly diagnose the

source of any problems with your NES. If your NES is still covered by the 90 day warranty, all you need to get it fixed fast is your original, dated sales receipt. If your warranty has expired, you can take your NES to a World Class Service retailer to speed up the repair process and put it back in action quickly. You can also buy a new, Nintendo quality components and get playing again immediately (which is useful if you have a dog

that likes to eat NES parts).

Nintendo World Class Service is now available at selected locations in the following states: Massachusetts, New York, New Jersey, Pennsylvania, Minnesota, Wisconsin, Illinois, Virginia, Arizona, California, Connecticut, Maryland and Washington.

For more information on the new Nintendo World Class Service program, or to find out which World Of Nintendo retailers are participating in the program in your area, call Nintendo Consumer Service at 1-800-255-3700.

Celebrity Profiles

Willie Aames

Willie Aames may play a bumbling fall guy as outrageous "Buddy Lembeck" in the hit television series *Charles in Charge*, but he really takes charge when he plays Nintendo games. Willie has been a dedicated NES player since 1986, the year the system was launched nationwide.

Willie's son Christopher, age 5, gives his dad some stiff competition when they play games together. "The first game we played was *Super Mario Bros.* and Christopher rescued the Princess before I even got through the first world," laughed Willie.

Whether the two square off against each other in *The Legend of Zelda*, *Gradius* or *Teenage Mutant Ninja Turtles*, Christopher continues to have an edge over his father. There is one game, however, in which Willie has been able to outduel his son. "When we play *Top Gun*," confided Willie, referring to his favorite game, "I have my secret weapon—I make Christopher clean up his room to distract him! The problem is, his room has been a lot cleaner lately, so I probably won't be the only 'Top Gun' around here for much longer."

Willie began his acting career at the encouragement of his first grade teacher's boyfriend, a television commercial extra. Co-starring roles in two television series were Willie's big break and ultimately lead to his portrayal of "Tommy Bradford" on ABC's

Willie's in charge when it comes to *Top Gun*!

highly-rated series of the 70's, *Eight Is Enough*.

Several movies followed Willie's five-year run on *Eight Is Enough*, one of which, *Zapped*, teamed him with his long-time friend, Scott Baio. The pair had so much fun working together they decided to continue their partnership on *Charles In Charge*. On the show, Willie's portrayal of "Buddy," Charles' best friend, is much like their real life relationship.

In addition to occasionally writing episodes of *Charles In Charge*, Willie is also busily involved in the

cable television series *Dead Letters*, which he describes as "an anthology show like *Twilight Zone* but with a sense of humor." However, Willie is most excited about a new show he will be hosting on NBC next fall. Called *The Crypton Factor*, the weekly game show will quiz contestants in several categories in search for America's brightest teenager. "Hosting *The Crypton Factor* appealed to me because the show stresses education," said Willie. "The format is similar to *Jeopardy* in that contestant must have a broad knowledge of several subjects in order to do well," he added.

When his schedule permits, Willie and his family compete in several fishing tournaments throughout the year. In fact, Willie is such an avid sport fisherman he is currently producing a video on big game fishing. Also an experienced ocean diver, Willie has dived in exotic places like the Red Sea and Australia's Great Barrier Reef.

But whether he's battling a huge marlin in a deep sea fishing tournament or dueling with an enemy plane in *Top Gun*, Willie knows he will always come out a winner, even if he can't make the fish clean its room!.

Celebrity Game Review—

Captain Skyhawk

"We both felt like Luke Skywalker in *Star Wars*," replied Willie when asked what he and Christopher thought of *Captain Skyhawk*. "The game has the best graphics of any we've ever played. You really feel like you're part of the action," he added enthusiastically.

"As the pilot of a high-speed jet fighter," said Willie, "you fly through canyons and over forests and deserts in a mission to destroy enemy ground forces. But you have to be careful," he commented. "Not only do you have to con-

stantly dodge enemy ground fire, but you also must repel waves of attack planes trying to blast you from the sky."

After climbing to level five ("220,000 points!"), Willie gave *Captain Skyhawk* a resounding thumbs-up. "The game was awesome!" exclaimed Willie. "Not only was it extremely challenging, but Christopher and I had a lot of fun playing it, too. On a scale of one to five, we definitely give it a five!"

PAK WATCH

**A LOOK INTO THE
FUTURE OF NES
GAME PAKS!!**

We saw many great games at the CES—games that really take full advantage of the NES' programming potential. One we thought really packed a lot into one Game Pak was Asmik's Wurm. A science fiction adventure, Wurm follows members of the Drill Force as they take a journey to the center of a strange planet. Their awesome drilling machine, the VZR-5, can tunnel through solid rock and transform into several forms, including a powerful flying fighter. The four-man crew each has different areas of expertise: Dan, the pilot with

nerves of iron; Moby, the brave navigator and explorer; Locke, the engineer; and Mike, the biologist. Together, the team will explore danger-filled subterranean caverns in search of missing Drill Force VZR ships. Along the way, they will encounter hostile creatures and bizarre civilizations.

As we mentioned, Wurm is distinguished by the variety of different game play tasks the game contains. There are both top-to-bottom and left-to-right scrolling action scenes, cinema screen style interaction with the crew members, first person perspective battle segments and exploratory scenes with the crew outside of the VZR-5. It's one to watch for!

Side view scrolling action against subterranean proto-bio-monsters!

ISOLATED WARRIOR

Cut off from any hope of relief, Max Maverick, a trainee of an elite combat troop, must fight his way through advanced cities which have been overwhelmed by alien creatures. Armed with rifle, grenades and a powerful battle suit, he is— the Isolated Warrior! Isolated Warrior, a future offering from NTVIC, differs from the typical NES "dodge and destroy" game. It features colorful graphics and a unique three-dimensional

viewpoint on the action (somewhat similar to the old arcade game Zaxxon). Later stages have different viewpoints, including a first person view combat sequence. The alien creatures really look like they're from another planet and the ruined city is displayed in 3-D detail. Isolated Warrior is still in the prototype stage, but looks good so far.

PAK WATCH

LOW-G-MAN

If action is the name of your game, Low-G-Man is your man! Our product analysts just got a brand

new version of this one that is far superior to the one we saw at the CES. In this project under development by Taxan, the hero, Low-G-Man, battles to re-take a planet which has been taken over by the very robots sent to colonize it. Low-G-Man has a unique attack—he uses a sturdy metal spear to deactivate the robots, plus he has an electro-magnetic disruptor pistol which will temporarily immobilize any robot. In addition to these weapons, Low-G-Man wears a low gravity backpack which lets him make some amazing jumps, especially when it is fully powered up. This will help him explore the city better, and fight the bosses—towering robots up to three screens tall! Another unique game play aspect is Low-G-Man's ability to wrest different vehicles and

weapons from enemy control. There are three cool vehicles, each with a unique mode of locomotion, one is a hovercraft, one is a spider-like contraption and one has mechanical legs for even more powerful jumping. This game should appeal to fans of adventure games, with futuristic locations and exotic weaponry, such as Bionic Commando and Mega Man. Look for more on Low-G-Man soon.

Iron Nail is short for a Low-G-Man boss— he's only two screens tall.

The Spider is the coolest vehicle

Make amazing leaps with the Walker.

Rise above it all with the Hovercraft.

CASTLEVANIA III

The excitement's starting to build for Castlevania III. Many of you may have gotten

a sneak peek at a prototype version of the game on the Power Walk of the Nintendo World Championships. Castlevania III's game play harkens back to the original Castlevania game, but new, tough enemies block Simon's progress through exquisitely ghoulish surroundings: graveyards, ghost ships

Creepy Castles!

and haunted castles. And wouldn't you know it—that pesky evil dude Dracula is the ultimate source of Simon's headaches again! Fans of Simon Belmont, get ready; Castlevania III should be creeping its way to your local Nintendo retailer sometime this summer!

And this is just the first stage!

FROM KEMCO-SEIKA

Deja Vu, a game with the same kind of PC game features that made Shadowgate a hit, is on its way to the NES. Set in the present day, Deja Vu involves a murder mystery with a Twilight Zone feel. The story goes that you wake up in a Las Vegas hotel room and find a murder victim. You must find the killer to clear your name. In the course of your investigations, you will meet many strange individuals

and even do some gambling (both activities you'd experience in the real city of Las Vegas). Deja Vu will have 3 "megs" of memory and feature over 100 screens to explore.

The Bugs Bunny Birthday Blowout, which is due out soon, celebrates the 50th birthday of that "wascally wabbit", Bugs Bunny. It chronicles the antics of Bugs as he tries to get to his birthday party. Bugs' journey is made unpleasant by certain anti-social 'toons, like Wile E. Coyote, who weren't invited to the bash.

A little further off from Kemco-Seika is a NES version of the Amiga game North And South, an action/strategy game set in America during the Civil War.

Our investigators at the CES found out that Tecmo is planning on re-releasing Tecmo Bowl with updated player roosters at around the time this fall's football season begins. They are also working on Tecmo Bowl II, Solomon's Club (a sequel to Solomon's Key) and a driving game tentatively titled "Head On".

With so many good baseball simulations available for the NES, you might think it's bad news that yet another is on the way. But Bad News Baseball from Tecmo is a very good baseball simulation, with better graphics and play control than Tecmo Baseball. Plus, it switches to cool close-ups cinema scenes when covering close plays.

GOSSIP

THREE FROM SAMMY

PAK WATCH

American Sammy has three new titles in the works, each in a different gaming area. Michael Andretti's World GP is their entry into the NES driving game race. It has 16 world grand prix courses to race on, and on each Michael Andretti gives his personal advice on how to handle the course. Although the play control is different than in other racing games, the best thing about this one is that you can race against time, a pro racer, or another player

(with split screen graphics). Arkista's Ring may look like a RPG at first glance, but it plays like an action game. Arkista, the elf hero-inemust find eleven treasures somewhere in the game's 125 levels.

Silkworm is an action contest which allows for two player simultaneous play, where one player controls an attack helicopter, the other a high powered jeep. Big variety, Sammy!

FROM IREM

Irem, the creators of the arcade favorite R-Type, are planning to bring Image Fight, an arcade style action game, to the NES. Yes, there are awesome aliens from outer space threatening Earth; and yes, there is a lone hero in a rocket fighter who is the only hope for otherwise defenseless mankind. However,

Image Fight goes beyond the average battle game with wild arcade-style action and colorful graphics. Your ship can collect many optional weapons that almost fill the

screen with energy. To add to the challenge though, the enemies have some heavy weapons of their own. We expect this one to become a favorite of "shoot-em-up" fans.

The U-Force was a bit difficult to find during the past holiday season, but it is now in much greater supply. Several U-Force enhanced games are in development including a 1st person perspective combat/martial arts/boxing game which will include a training session with several exercises. Also in the works is an RPG which will use the regular controller for movement and the U-Force for activities such as using items, combat and magic! All these games will have special play features which will be accessible with the U-Force controller. We'll be interested in testing them, "hands off" of course, to give you a better "feel".

Enix, the developers of Dragon Warrior, are forming an American division to release Dragon Warrior II. Rumor has it that this one has a much larger world to explore than the original, and it allows you to control a three character party.

GOSSIP

FROM HI-TECH EXPRESSIONS

Following the success of their educational games designed for younger players, Sesame Street 1-2-3 and A-B-C, Hi-Tech will be expanding their appeal to reach other age groups in the family. Currently in the works are The Hunt For Red October, based on Tom Clancy's best selling subma-

rine hunt thriller (and hit movie); Fun House, which follows the successful kids TV game show; and Jim Henson's Muppet Adventure: Chaos at the Carnival. Other titles

on the horizon include Big Bird's Hide and Speak (a game which will incorporate more voices than any NES game so far); The Loony Toons Cartoon Maker (the first NES animation program, featuring Bugs Bunny and Road Runner); Robin Hood: Adventures in Sherwood Forest (a RPG with arcade action); and War In Middle Earth (an epic game based on Tolkien's classic fantasy novels). Quite a line-up!

FROM MINDSCAPE

Mindscape announced several titles at the CES that should be finished sometime this fall. The best of the crop is Gauntlet II, based on the arcade hit. From what we've seen, the programmers have done

an incredible job on the translation. The NES version looks, sounds and feels like the coin-op, most notably because it has a four player simultaneous mode that

can be used with a four player accessory.

Mindscape is also working on Dirty Harry, an action game based on the movie series; Days Of Thunder, a stock car racing game that follows the story of the summer movie of the same title; and Bruce Lee Lives, a NES translation of the PC favorite following the tongue-in-cheek continued adventures of the martial arts legend.

FROM FCI

FCI has picked up the rights to the entire series of Advanced Dungeons and Dragons PC games for the NES, with the first game in their series being Heroes of the Lance. The next title will be Pool of Radi-

ance, which will be oriented more towards role playing style of play, compared to the action and adventure of Heroes. FCI is also working on a sequel for Ultima for the NES titled Quest of the Avatar (based on Ultima IV for the PC) and a NES version of the PC hit

Bard's Tale. It looks like FCI may be a company to watch for NES role playing games!

Mediagenic is planning for a busy fall NES season, and told us about a few of their future projects. First is an outer-space racing game using armed hovercraft vehicles with a R.C. Pro-Am feel. Another is a space exploration "light RPG" which is being programmed by Interplay. It involves the adventures of a "Dudley Do-Right" type character as he tries to deactivate a planetary communication computer network gone wrong. Also, Mediagenic plans to introduce an advanced flight simulator with cinema scenes to tell the game's story and a NES translation of a Japanese action classic, Winchester.

GOSSIP

GOSSIP GALORE

We're trying to catch up with all the games that were announced at the Winter CES in this issue's expanded Pak Watch. We remind you that Pak Watch sometimes covers games that are not coming out for a while because they're still under development, although some will be out sooner than others. We hope the advance looks we give here will whet your appetite for some hot gaming!

U.S.M.C. HARRIER JET FLIGHT SIMULATOR

Absolute is following up the success of A Boy And His Blob with a U.S.M.C. Harrier Jet simulation which aims at being more realistic than any other NES flight simulation. Special features include a life-like, detailed instrument panel and "windshield displays" in a view from the pilot's seat. The game also includes vertical take-off and landing in a side view and an air-to-ground combat sequence in a view from behind the plane. Also in the works is a Space Shuttle mission simulator that will encompass a wide variety of shuttle tasks.

PIPE DREAM AND HATRIS

Bullet Proof Software, the people who helped bring Tetris to Game Boy and the NES, have more puzzling fun on the way with two new titles, Pipe Dream and Hatris. Pipe Dream, which was developed for the PC market by Lucasfilm Games, challenges your ability to construct a series of pipes to control the flow of a stream of sludge called flooz. Once you get used to the simple concept of this game it's just as addicting as Tetris. Speaking of Tetris, the other game BPS has under development, Hatris, is an Alexey Pajhitnov encore to that mind-bender. In Hatris, six different styles of hats fall down the screen in pairs. You need to arrange the hats in stacks according to their type to keep the piles from growing too high. You'll have to be a man of many hats to master this one.

NES PLAY ACTION FOOTBALL

Nintendo's gridiron simulation promises to be the most entertaining and advanced NES football game yet. Nintendo has done extensive research to make the team rosters as accurate as possible (barring surprise trades or injuries). It now looks like the game will start making its way into stores this summer, in plenty of time for the fall football season.

SWORDS AND SERPENTS

Our friends at Acclaim let us in on what they have in store for the NES. Swords And Serpents, the tentative title of their coming role playing game, incorporates features of actual role playing games, including the ability to "roll up" your own character. Plus, up to four players can play simultaneously (with a four-player controller), with each player controlling a member of the four-person party.

There's big excitement here at Nintendo Power! We're going monthly! Instead of waiting two months between issues, we'll be presenting power packed NES tips and info every month. The regular issue of Nintendo Power will still contain over 100 pages of top game tips and other insider information, and will appear in your mail box every other month. But on the "other" months, you'll get a Nintendo Power Strategy Guide that will give super-detailed coverage on a single hit game. We're pretty excited about the whole thing, and we think you will be too (especially since they're free with your subscription). In June look for SMB3, your first Strategy Guide edition!

I've been spending a lot of time recently helping to plan the Nintendo World Championships 1990. By the time you read this, the tour will have started and hopefully I'll have met some of you in person (I wish I could visit every stop of the tour!). Be sure to let us know what you think about the NWC. Your comments are invaluable in planning future events!

Well, gotta go! We'll see you next month in the first Nintendo Power Strategy Guide—featuring Super Mario Bros. 3!!! Don't miss it!

CODE NAME:

VIPER

Before they were captured, the other Viper commandos were able to get these maps to Kemy at Headquarters. Use them to your advantage!

SNEAKY SNIPER

Quick reflexes will enable you to take out snipers. Shoot once and then jump down to avoid their fire.

START

THE ANCIENT STATUE

This trap can be avoided by jumping to a different level, or by going into a door and staying inside until the sliding statue has moved past.

END OF STAGE 4

START

MECHANICAL STEAM TRAPS

These weird traps look deadly, but they are easy to avoid once you've studied their movement patterns.

DON'T MISS THIS 1-UP!

MANIACS!

Grunt survivors of a mad professor's experiments, these half-starved fiends attack anything that moves. It's best to put them out of their misery when they're in the middle of slipping out of their coils. They go crazy once they sense their prey.

END OF STAGE 5

START

CRAZY CONVEYOR BELTS

It takes practice to get the hang of moving about on these conveyor belts. Sometimes quick jumping works best, other times it pays to be patient. As a general rule, you'll want to go in the opposite direction from the way the conveyor will take you.

BOX SNIPERS

They have been stationed in this warehouse also.

MECHANICAL MASHERS

The key to getting past the mechanical mashers here is to watch the patterns they move in closely. Wait for an opening and go for it!

END OF STAGE 7

Items & Enemy List (See Review For Detail)

STEEL GRIDERS!

To add to the hazard of the conveyor belts, steel griders will fall from the ceiling. In this area, advance cautiously and if you see a grider falling, hold your position on the conveyor belt by jumping straight up. Once the grider has fallen, it's safe to move on.

Stage 6

END OF STAGE 6

THE DRUG LAB TOWER!

In the drug lab tower, there is more than one path you can take to the top. One path is shorter, but heavily guarded, the other longer, but with less enemy opposition. As long as he doesn't get hit, Kemy can survive rather incredible falls. Jumping off a ledge can sometimes be a good tactic to bypass difficult areas.

NEED A LIFT?

If you get to the top of an elevator and it looks like a sniper is waiting for you, go down and come back up. Sometimes he'll be gone when you return.
